Cambridge Environmental Technologies Partners with WEIS ENVIRONMENTAL, LLC

Cambridge, MD – Cambridge Environmental Technologies (CET) is proud to announce its new partnership with Germany-based WEIS ENVIRONMENTAL LLC. This mutually beneficial agreement will serve both parties in the goal of providing state-of-the-art technologies and solutions to a global clientele.

Cambridge will be hosting WEIS ENVIRONMENTAL, offering the accommodation and resources of the Maryland corporate headquarters, including sales support, project management, engineering, and manufacturing facilities. Weis will leverage its range of proven technologies, bringing its complete BETH Filtration product line to the United States.

“With Cambridge’s manpower and our expertise in the field of air pollution, we have the opportunity to further develop the U.S. market by offering our customers superior solutions and customer service,” says Alexander Weis, CEO of WEIS ENVIRONMENTAL. “This is a win-win situation for everyone involved.”

Cambridge will provide exceptional customer service and support, as well as engineering and field assistance to the WEIS line of technologies (BETH Filters). Cambridge’s legacy of engineering and 100-year history of developing solutions for process optimization is the ideal match for WEIS and its proven technologies.

“We have always been impressed with the range and quality of WEIS products,” says Bob Maine, General Manager of CET. “This partnership will give both WEIS and CET the ability to provide cutting-edge solutions to our customers.”

###

About Weis Environmental LLC, a Division of ECOPLANT Filtration
